A GOLDEN PAGEANT

In Honor of the Greatest Queen in History.

Millions of People Cheer the Ruler of Britain.

The Greatest Parade the World Ever Knew.

All the Colonies of the British Empire Represented.

The Nations of the World, Along With British Subjects, Do Honor to Queen Victoria.

BUCKINGHAM PALACE, June 22.—The last of the procession is out of sight, the roar of cheers that mark its course up Constitution Hill tells the beginning of the story of the queen among her people, while the artillery in Hyde park by a royal salute of sixty guns are thundering the fact to waiting thousands elsewhere. The queen has actually started and the hearts of thousands insurance people and members of Lloyds beat more placidly as they remembered the premiums on five millions of dollars that had been wagered with them whether or not her majesty would start.

THE COLONIAL PROCESSION.

The procession was practically in three sections as far as St. Paul's, though the two last en route to the Cathedral were consolidated as they moved into Piccadilly. The first to take up position was the colonial procession formed on the embankment and moved via the Mall, thence past the palace, where her magesty viewed it from a window, over the route to St. Paul's. The march began at 8:45 and the great cortege proved a welcome relief to waiting multitudes.

The procession was headed by an advance party of the Royal Horse guards. Then followed the band of the same corps playing the inspiring "Washington Post March." Close upon the band came a portion of the picturesque northwest mounted police as escort to the first colonial premier, the Hon. Wilfred Laurier.

The Victorian mounted troops followed, smart, weather-beaten fellows, in unattractive brownish uniforms, succeeded by the New Zealand mounted contingent, a fine looking, sunburned lot, drawn from almost every town of any importance in the colony, displaying uniforms intended for the conflict rather than the parade ground. Then came New Zealand's premier, the Hon. Richard J. Sedden.

For the moment, Australia gave way. Africa was allowed a chance and Cape of Good Hope Cavalry well mounted and wearing the scarlet, with white helmets, rode by to herald the coming of the Cape premier, the Hon. Sir J. Gordon Sprigg, K. C., M. G. Hardly had he been noticed and to the majority unknown, when attention was claimed for the yellowish brown kharke lit with bright scarlet from the blazing lugaree on the spiked helmets to the double stripes down the seams of tightly fitting corduroy trousers with large chamois leather paches where the knee gripped the saddle, which proclaimed the south Australian mounted troops. Lean, long specimens of wiry manhood they won applause like the rest and passed on to give place to the premier of New Foundland, Hon. Sir W. V. Whiteaway. From New Foundland, one was transported to Natal by the Natal Mounted troops, a contingent similar in model and equipment to their cape brothers-in-arms. Hon. Sir H. N. Nelson, K. C., M. G., rode after them, the official personifications of western Australia.

The premiers being disposed of, then succeeded a really most attractive display, mounted troops of the Crown colonies, the Rhodesian horse, the Colonial Infantry broken by three bands, typical of the United Kingdom, those of St. George's, the London Scottisch, and the London Irish Rifle Volunteer corps and others. Then there passed the splendid contingent from Canada infantry 175 strong, uniformed somewhat like the regular service infantry, with Colonel Aylmor leading. Much applause was bestowed on the fine marching of these men who in every way kept the dominion to the front.

Following came the real oddities in the eyes of Londoners, of which the Saptiehs from Cyprus divided the honors with the Dyaks of Borneo. Both are military police; the Saptiehs were mounted on island ponies and naturally wore the Turkish fez, with a jacket somewhat suggestive of Constantinople and the Minarets of Stamboul. The Borneo dyake's yellow colored smallish caps, were eagerly expected by the crowd, owing to their head-hunting proclivities of which, however, no trace could be noticed in their dress. These and others coming after which repeated the thought how widely scattered are the races the queen rules. The Trinidad field artillery, the Sierra Leone militia with their strange small blue turbans and depending tassels and knickerbockers; the British Guianes police, with their white curtained caps, the hussars in the familiar Zouave costumes of long ago and the Royal Niger hussars, men who fought at Ilorin and Bida being in the uniform of kharage clothe trousers, exposing the limbs, were all blacks. The hussars, the blackest of the blacks, wearing "the burnished livery of the sun" were most enthusiastically greeted.

THE MILITARY PROCESSION.

The second procession passed the palace fifty minutes after the colonials had climbed Constitution hill. It more than eloquently filled in the picture of Britain's war strength; more than magnificently completed the carnival of gorgeous costume and color. Scarlet and blue and gold; white and yellow; shining cuirrasses and polished helmets; plumes and tassels; furs, and gold and silver spangled clothes; bullion embroideries and accourtements; splendid trapping and more splendid trappings for men; sashes and stars; crosses and medals—medals for the Crimea, Indian, Seringapalam, the Nile, Ashanti, Afghanistan Chiltral, South Africa, China and dozens of others, and here and there the finest of them all, the finest and most highly prized the world can show, the Victoria Cross; death dealing weapons, swords and revolvers; carbines and cutlasses; batteries of artillery; men of splendid physique and horses with rare action fully entered in the spirit and meaning of it all, the fondly carried colors for which these men would die, and over all the rich strains of that music they best loved to hear—the sight was one to stir the blood as only soldiers have stirred it since the dawn of time. But the scores of troops and companies were literally too numerous to mention except as a brilliant whole.

THE QUEEN AT LAST.

The empire had passed in review and the head of it all was now to come—her majesty. The royal procession proper was interwoven with the crowd of waiting dignitaries of all sorts. First came the aides-de-camp to the queen, these being headed by the prince of Wales, the dukes of Cambridge and Connaught and the earl of Weymss. Then followed alone the lord lieutenant of London, his grace, the duke of Westminster, K. G., in a lord lieutenant infantry uniform. The duke was followed by a glittering cavalcade of officers, the headquarters staff. To them succeeded field marshals.

Next came three officers of the auxiliary forces in attendance on his royal highness, the prince of Wales, equierries, gentlemen-in-waiting and military attaches, foreign naval and military attaches—a brilliant lot of gentlemen with a glittering array of titles, uniformed in the dresses of all the courts of Europe and half its crack regiments, and wearing all its stars.

After the Germans came the most brilliant group of all the soldiery, the officers of the imperial service troops from India, in their uniforms, a mixture of the English regular army and native dress were brilliant to a degree not to be witnessed outside of countries where barbaric splendor and ingenuity in embroidery is the rule.

The special envoys, not numbered among the princes, followed the Indians—in eleven two-horse landaus from the royal mews—all painted lake and vermillion.

The crowd now began to show more eager interest in the approaching vehicles, they were nearer and nearer to the queen. Five road landuas, like those which had just vanished, only horsed by four horses four with bays and fifth the Dutch blacks of the royal mems, appeared first. The occupants of these landuas were princes and princesses of the blood.

Then the first part of the sovereign escort rode into view, the second life guards. As they walk brilliant uniforms appeared, the whisper ran electrically, "she's coming." The guards were succeeded by the escort of British and foreign princes. Many faces were known, recognized and cheered. This brilliant escort was composed of the flower of Europe's thrones.

Following the princes came the guard of honor—twenty-two officers of native Indian cavalry corps—men of a fine physeque and strange faith. The crowd could see the queen's horses—it was "the queen at last."

A cheer broke forth that seemed to shake the ground, renewed again and again as her majesty's carriage approached. The famous eight Hanoverians, pink color with, long tails, white, cold almost fish-like eyes and pink noses, the names richly woven with ribbons of royal blue were now passing. Gorgeous they looked in their new state harness-saddle clothes of royal blue velvet with rich fringes of bullion, the leather work red morocco above and blue beneath, glittering everywhere with the royal arms. The liveries of the postillions were in keeping with the harness and had cost $600 a piece. For once since the prince consort's death the queen permitted the mourning band to be removed from men's arms, there was no note of sorrow.

The carriage in which her majesty rode now came abreast. It proved to be a carriage with a light running body built about a quarter of a century ago and of which her majesty is known to be very fond. Beside her majesty rode the Princess of Wales; opposite her majesty, his royal highnes, Prince Christian.

On the left of her majesty rode his royal highness, the Duke of Cambridge; on the right, his royal highness, the Prince of Wales, who was followed by the Duke of Connaught, the general officer commanding.

QUEEN GREETS LORD MAYOR.

ROYAL LAW COURTS, June 22.—The boundary of the Faithful city has been crossed by her majesty who has received the ancient stately homage from her chief magistrate. The lord mayor and the city officials on horse back arrived ten minutes before the queen was due and very striking was their appearance. Sir Faudel Philips wore the earl's robe to which lord mayors are entitled when crowned heads visit the city—a cloak of ruby silk velvet lined with white silk and edges with ermine. Sheriffs Ritchie and Rogers wore the sheriff's velvet court dress, scarlet gowns and chains. The "Verie good bye sword" known as "Queen Elizabeth's pearl sword" presented to the corporation by the maiden queen at the opening of a royal exchange, A. D., 1570, was carried by the lord mayor. The sword is three feet eleven inches long with a fine Damascus blade.

On the arrival of the queen the lord mayor uncovered. Approaching the carriage of her majesty, his lordship, with all due obeissance, presented the hilt of the city's pearl sword, which was undrawn. The queen lightly touched it, thus returning it to the lord mayor in token that his submission was graciously accepted by his soverign. Her majesty then commanded the lord mayor and the sheriffs to proceed and the procession moved towards St. Pauls.

IN THE SHADOW OF ST. PAULS.

The great bells of St. Pauls broke out in happy chorus as the queen's carriage started from Temple Bar, and only ceased as her majesty's carriage stopped in front of the steps of the city Cathedral. On the platform awaiting her were the archbishops of Canterbury, the lord bishop of London, the bishops of Marlborough and Stahney, the Very Rev. Dean Gergory and the clergy of St. Pauls. In the surrounding dignitaries were leading representatives of all the faiths of England.

With the stopping of the queen's carriage the picture was complete the swelling hymn that had risen on the summer air from five choristers of her majesty's chapel royal, Westminster abbey and St. Pauls, ceased its grand harmonies in one long drawn soft "Amen." The service was about to begin. Nowhere else on the route already traversed was the slope of faces carried to so great a height. All around like some vast ampitheatre, walls of people stretched upwards as if to climb the sky. The ecclesiastics who had issued from the great west door as the queen approached standing beside the improvised altar now began the simple service. A te deum by Dr. Martin, organist of St. Pauls, composed for the occasion, was sung. As the sonorous "Amen" died away the sweet voices of the cathedral clergy were heard chanting "O Lord save the Queen" to which the great choir in a wonderous volume of harmonious sound responded "and mercifully hear us when we call upon Thee."

The bishop of London, in full canonical, then read a short collect, after which, as her majesty sat with bowed head, the archbishop of Canterbury announced the benediction. Then amidst the further ringing of the bells the national anthem was sung, and the queen drove on into other scenes.

At the law courts, the queen was met by the lady mayoress who presented her majesty with a basket of flowers. In presenting the flowers Lady Phillips, who was in mourning and attired in black, with powdered hair, said: "Might I be permitted to present this basket of flowers to your majesty?" The queen twice replied: "I am deeply grateful." Her majesty smiled, was evidently greatly pleased and looked fresh and bright. She wore no spectacles, looked at the flowers, passed them to the Princess of Wales and put out her hand to the lady mayoress to kiss. The latter, undoubtedly agitated by the splendor of the occasion, shook her majesty's hand, instead of kissing it. In the meanwhile a distant band struck up the national anthem and the crowd joined in singing "God Save the Queen," which was sung by thousands of voices surrounding her majesty until she was out of sight. Before leaving, the Prince of Wales turned his horse and waved his hand to the lord mayor's party.

THE RETURN TO BUCKINGHAM PALACE.

BUCKINGHAM'S PALACE, 2:15 p. m.—As her majesty entered the gates of the palace at 2 o'clock a distant gun in Hyde Park announced to so much of the world as was not before the gates that the great procession was over. The event so long prepared had passed into history. The sound of the royal salute was answered still by cheering as if the loyal subjects who came to cheer had not yet satisfied their ambition and then the crowd faded away as it came. The queen reached the palace on her return from the procession at 1:45 p. m. She was very much pleased and smiling and was not over-fatigued. The whole affair passed off without a hitch. There were no serious accidents, although a number of women fainted and a man fell out of a tree on the Mall. The queen witnessed this and promptly sent one of her equirries to inquire as to the man's condition.

QUEEN TO HER COLONIES AND INDIA.

The queen has sent the following message to the British colonies and to India:

"From my heart, I thank my beloved people. May God bless them.

THEIR LORDS LEAVE.

Two Domestic Edens That Are Now Adamless.

Mrs. Devaux is Looking for Her Recreant Spouse and So Likewise is Mrs. Turner—Two Desertions.

Mrs. Devaux is the name of a woman who wants the police to find her husband for her. The couple until last Saturday had been living on West Main street. On that day Devaux disappeared and his wife knows nothing of his whereabouts though she is positive he has purposedly and forever abandoned her to a husbandless fate so far as he is concerned. Mrs. Devaux says he drove from home Saturday with his horse and buggy and she is firm in the belief that he sold both animal and vehicle to obtain money with which to leave the city. No trace can be obtained of the parties to whom he sold the property, if it be true that he disposed of them. Mrs. Devaux says they had been married sixteen years and that her husband is a very impulsive Frenchman who drinks to excess and is ugly when drunk. The man has been engaged in selling patent rights in this section. There is no clue to the missing man, but he is believed to have gone to Chicago.

ANOTHER DESERTER.

Henry P. Turner, a painter who, with his wife, has been living at 14 Caroline street, has deserted his home. Mrs. Turner says that he came home Saturday, packed his carpetbag and coolly bidding her farewell left their house, offering no explanation and leaving her no means with which to support herself. She says he had no cause to abandon her.

OHIO CONVENTION.

Republicans Likely to Have a Big Fight.

The Hanna and Bushnell Factions Come Prepared for War—State Chairman is the Bone of Contention.

TOLEDO, Ohio, June 22.—The republican state convention began here today. It will nominate a full state ticket and endorse a candidate for United States senator. There is no opposition to Senator Hanna for both the short and the long terms and none to the renomination of Governor Bushnell and other state officers, all of whom are running for their second terms. There is no agitation over the resolutions or any of the ordinary issues at conventions. The contest has been from the start for the control of the state central committee which selects the campaign chairman. Each of the twenty-one congressional districts was closely canvassed in advance for committeemen and both factions claimed a majority of the twenty-one members up to today. Senator Foraker, Governor Bushnell and others have been untiring in their efforts to retain Chairman Charles L. Kurtz, while Senator Hanna and the old following of President McKinley and Secretary Sherman have supported Major Charles Dick for the place.

This fight has involved all the party leaders on one side or the other, and is the most bitter contest that has been waged within either party for years.

The old state central committee held its last meeting this morning, but owing to the peculiar canvass for campaign chairman none of the contests were decided for the temporary organization of the convention. These contests were referred back to the district meetings of the delegates this afternoon. Senator Hanna arrived from Cleveland with a large escort shortly after 11 o'clock, and held a conference with Major Dick. The latter presented an ultimatum from Governor Bushnell. In this ultimatum the governor authorized Major Dick to say to Senator Hanna that he (Bushnell) would decline renomination if Chairman Kurtz was not retained in charge of the state headquarters.

Hanna and Dick remained in secret conference for some time, after which Senator Hanna and Governor Bushnell are to have a final conference previous to the district meetings of delegates at 3 p. m. There are many who say Governor Bushnell will recede from his ultimatum of declination, but in the event of his declination the Hanna men, who largely control the convention, say they will proceed to accept the declination and nominate J. H. Brigham, assistant secretary of agriculture, for governor. Brigham has been largely sought after here all day. In this event there would be other changes in the state ticket.

The conference between Senator Hanna and his friends closed at 12:30, when it was announced that the senator would not consent to the withdrawal of Major Dick as a candidate for campaign chairman. Among those in the conference room with Senator Hanna were Congressman Grosvenor, State Senator James A. Garfield, ex-Chairman William M. Hahn, Major Dick and Colonel Myron T. Herrick. They were together over an hour and then Senator Hanna called on Governor Bushnell, the two being closeted alone.

SUED THE CITY.

Henry W. Chapin yesterday brought suit against the city for $5,000 damages. Chapin was injured in the accident at Lakeside several weeks ago when four men were killed. Chapin alleges that the earth through which the trench was dug was porous and composed of gravel, sand and loam, and at the bottom of the ditch the material was clear sand of the nature of quicksand, and that the superintendent in charge of the work, being an experienced man in that kind of business, knew that shoring was necessary. The plaintiff states that he was given employment, although he knew nothing about the work and knew not the danger that existed. He further charges that the superintendent had been warned of the danger that two layers of earth were liable to fall into the trench at any time. It is further charged that the superintendent had been told of the danger by some of the laborers, but had stated that there was no danger and that he would not protect the sides and that he would discharge any man who did not want to work in the trench without shoring being done. Chapin claims he was permanently injured about the hips and upper body so that he is unable to do any hard work.

NEW MAIN SEWER

To Relieve the Floods in the Seventh Ward.

Board of Public Works Likely to Order Its Construction on Monroe Street—Contracts Awarded.

One of the most serious questions which has confronted the board of public works is the problem of giving necessary and proper relief to the dwellers in the Seventh ward, where the sewerage capacity has been many times proved to be totally inadequate to drain that district of the city during wet seasons and at times of heavy rains. That section of the city is frequently flooded and it is a question no longer discussed that the health in that ward is impaired by the condition existing. The board of public works will furnish additional sewerage capacity as soon as the most practical plan can be determined. City Engineer Randall has surveyed several routes for sewers, the last, which was completed yesterday, being for a main sewer on Monroe street, from Laselle to the end. This seems to be the only practical route and it is not improbable that the board will determine upon it within a few days.

IMPROVEMENTS ORDERED.

The board of public works yesterday awarded the contracts for which proposals were received last week. George Wilhelm received the contract for building sidewalks on Monroe street, from Berry to Washington, at twenty-seven cents per lineal foot. The contract for grading the alley between Lewis and Summit streets, from Cedar to McCulloch, was given to Julius Remus, at ten cents per foot. J. F. W. Horstman was the successful bidder on the work of constructing sidewalks on Huestis avenue, his price being twenty cents per foot. The sidewalks on Thompson avenue will be constructed by Julius Remus, at the rate of twenty-three cents per foot; George Wilhelm got the contract for sidewalks on St Mary's avenue, from Putnam street north, at twenty-three cents per foot.

Councilman Haag, of the Fifth ward, appeared on behalf of the constituents to ask the board to hasten the erection of a fire engine house in Nebraska, and the building of a bridge across the St. Mary's river into Swinney park.

A remonstrance against the proposed grading of Walton avenue, from Lewis street to Wayne trace, was received and placed on file. The board approved the following bonds: That of J. A. Henry, for building sidewalks in Chute's homestead addition; Charles Auger, for building sidewalks on Oak street; J. H. Johnson, cement sidewalk in front of lot 94, Hanna's addition; Peter Hensel, for building sidewalks in front of lot 25, Ewing's addition. The contract and bond of William Geake, for raising the soldiers' monument at Northside park, was approved, as was also the contracts of Julius Remus, George Wilhelm, J. F. W. Horstman, for work mentioned above.

The board instructed the engineer to prepare plans and specifications for sidewalks on the west side of Fairfield avenue, from Creighton avenue to Organ avenue.

ANNUAL EXHIBIT

Of Art and Needlework at St. Augustine's Academy.

The Work of the Pupils for the Year—Pretty Things of Much Merit Shown.

A very large number of persons have visited St. Augustine's academy since Sunday, at which time the annual exhibit of the art and school work of the pupils began. The exposition room was filled with a wealth of beautiful needlework and pencil, pastel and charcoal drawings.

The exhibit is comprised only of work done by the pupils, many of whom are from the younger classes. Nothing, however, was shown below the fourth grade. The entire exhibit was of a high quality of excellence. The names of the executants were attached, and among them were seen those of the Misses Jennie Mooney, Della McCoy, Agnes Corcoran, Nellie Smith, Charlotte O'Rourke, Amelia Nussbaum, Fannie Beadell, Maude Fitzgerald, Albie Falvey, Carrie Work, Agnes Merz, May Quinn, Verva Graffe, Jeanette Muhler, Mary Dittoe, Alice Schnelker, Genevieve Hogan, Celeste Parnin, Minnie Rapp, Olivia Fox, Grace Dalton, Winnie and Bessie Hammond, Olivette Cameron, Adele Eme, Mary Kane, Marie Draker, Annie Sullivan, Julia Bickness, Edith Beckes, Catherine Center, Mary Hagman, Luetta Pierson, Henrietta Iten, Mary Noll.

In the pastels, which were particularly beautiful in coloring, the most noteworthy were two pictures of the Sacred Heart, done by Miss Annie Foohey, a picture of the Magdalen by Miss Loretta Logan, a dining room piece by Miss Amelia Artliebe, and two of flowers, a specie of cacti by Miss Jeanette Muhler, and a group of lillies by Miss Mary Hooper. Other workers with the colored crayon were Misses Josephine Irwin, Nettie Gutermuth, Della McCoy. A large oil, entitled Egyptian Moonlight, painted by Miss Ida Fairfield, was much admired; also an oil of a view on the Moselle by Miss Josephine Irwin.

The examples of free-hand pencil drawings were excellent. They were done by members of the senior department, among them being Charlotte Stier, Amelia Nussbaum, Clara Kukuk, Edith Fox, Mary Kane, Olivia Fox, Maggie Reilley, Mabel Rondot, Ida Fairfield, Maud Notestine, Alice Schnelker, Charlotte O'Rourke, Carrie Wort, Jessie Malone. The charcoal drawings of the seventh grade showed talent and careful study. The work seen was done by Misses Loretta Logan, Genevieve Hogan, Loretta Reed, Ella Telley, Agnes Muldoon, Helen Irwin, Josephine Irwin, Olivette Cameron, Mary Rekers, Frances Luegring, Jeanette Muhler, Henrietta Iten, Abbie Falberg, Lulu Roffelt, Katie McVey, Anna Welch, Mary Dittoe, Loretta Rondot, Mary Bensman, Bernadette Monahan, Katie Ryan, Nellie Shaughnessy, Dora O'Meara, Lillie Langard, Aena Sullivan and Winifred Callahan. Two Italian scenes in charcoal, by Misses Fairfield, and McCoy, attracted much attention.

THE report that the sugar trust is thinking of buying Cuba and thus ending the war with Spain sounds visionary. The figures are too high. If the trust really wants the island, as the dispatches would indicate, why doesn't it just claim it, as it does everything else?

O. H. DOWNEY has purchased another paper. He will take charge of the Kendallville News, July 1. Mr. Downey is a roving journalist and can jump in and out of the business quicker than any man in our acquaintance. Kendallville is a good field and it may be that he will remain a fixture there. The News is a good property and Mr. Downey is one of the greatest hustlers in the business. Dr Parker, the retiring publisher of the News is one of the veterans of journalism. He will be lost without a newspaper. Mr. Downey at one time published a paper in Fort Wayne and THE SENTINEL wishes him success in his new venture.

GENERAL GOMEZ is preparing to strike a blow to the province of Havana very soon. The insurgents now have control of the entire island outside of this province, and a large cargo of arms and provisions was safely landed only fifteen miles from Havana a few days ago. It looks as if Spanish tyranny in Cuba were very near collapse.

IN length of reign Victoria has beaten the English record, but the French record, that of Louis XIV., is a dozen years ahead of hers, and, of course, will not be touched. Louis' reign, however, counts from his fifth year of age, and was conducted through a regency until he was thirteen years old, while Victoria has actually as well as nominally been the sovereign during her sixty years of rule. Though Louis' reign will not be equalled by Victoria, it is safer to predict that it will be beaten by somebody outside of France than it ever will be by anybody in that country.

IT IS HIGHLY gratifying to note that Americans in attendance at the queen's jubilee are not making the fools of themselves that was anticipated. Americans abroad have long been the source of much sport, and after much experience foreigners have learned to look upon them as a class easy to cheat. Many of the sharpers were expecting to grow rich during the jubilee off the fat purses of their American cousins, but from all reports the would-be robbers are sadly disappointed, and the Americans are conducting themselves in a pretty decent sort of fashion.—Lafayette Courier.

THE senate judiciary committee is at work upon an anti-trust amendment to the tariff bill. Several such amendments have been proposed in the senate. They were all referred to the judiciary committee. A strong sentiment has developed in the senate in favor of some action which will curtail the trusts in their operation, but none of the plans which have been suggested up to the present time seem, in the opinion of the senate committee on judiciary, to exactly fill the bill. The committee is giving the matter the most careful consideration, with a view to framing a provision which will prove effective.

HIS BAN UPON IT.

The Rev. Oechtering Disapproves of Bands of Music at Funerals.

The Rev. Father Oechtering, pastor of St. Mary's Catholic church, has expressed his disapproval of the employment of bands of music at funerals and has put his ban upon the custom so far as his own congregation is concerned. The Catholic uniformed societies customarily march at the head of the funeral cortege at the burial of deceased brothers and a band of music usually attends them. The Rev. Oechtering has long been opposed to the custom and Sunday during the attendance of a band at the funeral of the late John Schulze condemned the custom as un-Catholic in strong terms of disapproval.

This has been a vexed question among clergymen of all denominations for a long time, and has never been settled. The Rev. Father Oechtering, however, is the first Fort Wayne clergyman to formally pronounce against it. Bishop Rademacher, by whom the matter will be finally passed upon, has never expressed disapproval of the custom.

The Second Game of the Series Won in the Eighth Inning—Status of Affairs in Springfield.

The Fort Waynes played another game with the Ohio Governors yesterday and won, but not until the demoralized visitors went to pieces in the eighth inning. The Springfields for seven innings played as fast and pretty a game of ball as has been seen on the Lakeside grounds this season. In the eighth inning with two men out, and two men on bases, Stevick muffed a fly ball and then Dinsmore and the team behind him went to pieces, and before the third man was out six unearned scores had tripped across the home plate. Three runs were added in the ninth, just to clinch the victory. Dinsmore pitched fine ball up to that fatal eighth, while during the entire nine innings "Dock" Severs pitched like a Nichols or a Rusie. In only one inning were two hits made off him, and that was in the third. After Cooke missed a fly which would have made two out, Miles made a two-bagger and Kuhn a single, scoring two runs. Errors in the ninth scored another run. Altogether, only four hits were made off "Dock's" curves.

NOTES.

A better game has not been pitched in the Inter-State than that of Severs yesterday.

Robinson is fielding like a fiend, but his batting is the weakest on the team. He will soon line 'em out.

Hickman won again and only allowed five hits. Why don't some National league club buy him and that quick, too, before he lands the pennant?

Homerun Robinson has been signed by Wheeling and joined the team there Monday. He was with Wheeling a short time last season and is a good man.

Manager Hurd, of Springfield, will blacklist Catcher Schabel and Pitcher Whittridge if they do not report today. He is in correspondence with several strong players and as soon as they can be secured the Governors will brace up.

New Castle Courant-Guardian: "Umpire Frank O'Brien was discharged Saturday night by President Powers upon complaint of Wheeling. Mr. Powers always did pay more attention to the complaints of Wheeling than answering ordinary questions propounded by New Castle."

Mansfield News: "A report was circulated Saturday night to the effect that Mangan and Somers had been released. Neither man was released. Manager Strouthers had a little understanding with Mangan, however, and in the future he will either play ball or be found on a section. Mangan has the privilege of making a choice to suit himself. Pete Somers has also received orders to use a little more judgment in some of his playing."

The New York outfield is made up entirely of ex-pitchers. Tiernan went to New York as a pitcher, but was not fast enough for the company. As a last resort he was tried in the field, and met with instant success. Van Haltren was the star twirler of the Chicago White Stockings in their halcyon days. "Ducky" Holmes dealt out curves in a minor league and managed to pitch several winning games for Louisville when the Colonels were on the ragged edge.

Youngstown Vindicator: "Frank O'Brien, chief of the Inter-State staff of umpires, is considering a flattering offer to officiate in the Eastern league, made him by President Pat Powers. O'Brien will present the matter to President Powers, of the Inter-State. O'Brien is offered more money by the Eastern association, as the league is a faster one than the Inter-State. According to Mr. O'Brien's statement book, after an umpire in this league pays his expenses and takes the abuse heaped on him he has little left to recompense him for his trouble." There are other umpires in this league who deserve to be promoted before O'Brien.

The Springfiel Sun, in a long article explaining the condition of the team, says: "Up to the present time the club has been just about self-supporting. The payroll Saturday night was about $200 short, but anything like a fair day at Fort Wayne Sunday would guarantee them enough to make up the deficit, and Manager Hurd was instructed to pay them all that was coming to them on the spot. There has been about enough stock collected to construct and equp the grounds and pay the $500 guarantee which, does the club last the season through, will revert back to the association. There is yet $1,100 worth of uncollected stock which for some reason has not been paid in. There is not the least dispoeition upon the part of those behind the association to allow the scheme of a base ball club to fall through and with the $1,100 all paid in the financial affairs of the Springfield base ball association will be on a solid rock. The city of Springfield has so far supported all games, as discouraging as the prospect has been, better than any city in the league. With Ed Hurd as manager and the stock all paid in, Springfield has a better chance to pull through the season financially than any club in the league, and with a winning team from now on will leave a nice balance in the treasury to fix up the buildings for next season."

VICTORIA'S JUBILEE.

Caledonians and Sons of St. George Celebrate the Event in This City.

Fort Wayne citizens of British birth or British descent celebrated the jubilee anniversary of Queen Victoria in fitting manner last night.

The members of the Caledonian society and the Ladies' auxillary held a joint meeting at Caledonian hall. An impromptu celebration followed the business of the meeting. Capt. J. B. White presided, and delivered an address on the "Queen's Jubilee." The British national anthem, "God Save the Queen" followed, being sung by all present. Capt. Allan H. Dougall then delivered an address, in which he very entertainingly compared "Washington and London," "The Queen and the President." Mrs. James Carnes spoke on "The Social Changes Among Women During the Queen's Reign." Mr. Hugh McLetchie sang "Rule Brittania," and Mr. David McKay talked of "Social Changes Among Men During the Queen's Reign." "Scots Wha Ha'e" was then sung by the audience. Mrs. Alex Wilson spoke of "The Queen Then and Now, and Her Realm." The evening's exercises closed with the singing of "Auld Lang Syne."

At an entertainment and banquet in Red Men's hall in the MacDougall block the Sons of St. George properly celebrated the long and eventful reign of Britain's aged queen. The early part of the evening was devoted to a literary and musical program and several short addresses were delivered. At the conclusion of the program a banquet was spread and toasts were responded to by several prominent citizens.

THE "WHITE TOP."

The Indiana Farmers are Now Fighting This Vegetable Pest.

The farmers of Indiana are confronted with a fresh vegetable nuisance which promises to cause no end of trouble. This is a weed known as the "white top" which is literally taking entire fields of hay and grain in various sections. A peculiar phase of this very latest pest is, that it has appeared in fields this year which were entirely destitute of it before. The wiseacres of Purdue have been questioned on this subject and are still puzzling their brains without being able to arrive at any satisfactory explanation. In the meantime large fields of clover and timothy have been given up, the hay being rendered valueless by the "white top." Like nearly all the ills which afflict the farmer's life there appears to be no remedy for the evil and the "white top" grows and thrives apace while the agriculturist wonders—"what next."

Kendallville Sun: "Henry Nahrwold, of Fort Wayne, spent Sunday with friends in this city. He is an employe of Root & Co., of that city, and a very excellent young man.—Miss Lottie Daniels spent Sunday with her sister, Miss Eva, at Fort Wayne.—At the home of Mr. and Mrs. C. H. Kiel there arrived Sunday Mrs. H. Wichman, Miss Gertrude and Masters Harold and Herbert Wichman, of St. Louis, accompanied by Mr. and Mrs. Walter Gerberding and Miss Dora Berning, of Fort Wayne. They came to congratulate Master Albert Kiel, who has been very sick, but is better now and on the road to good health again. They all enjoyed a good time and returned in the evening to Fort Wayne, where the Wichmans, of St. Louis, are spending a vacation with Mr. and Mrs. Wichman and family."

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

LEHMAN'S,

A woman's work is hard in many ways. Unless the woman is strong and healthy her work will cause her much distress and pain, and she will suffer from headaches, and backaches and side-aches, and each evening will find her utterly worn-out, sick and disgusted with life. In this condition of mind and body she cannot be a loving and amiable companion for her husband when he returns from his work weary too in body and mind.

If a woman wants to live a happy, contented, loving, helpful married life she cannot take too much care of the health and vigor of the organs distinctly feminine, for her general health and strength is largely dependent upon her special health in a womanly way. Dr. Pierce's Favorite Prescription enables a woman to be always well and strong where a woman most needs health and strength. It acts directly on the important and delicate organs involved in her wifehood and motherhood. It makes them strong and healthy. Taken during the period preceding motherhood it banishes the usual discomforts and makes baby's coming easy and comparatively painless. It insures the new-comer's health and provides an ample supply of natural nourishment. It cures all weakness and disease, and headaches, backaches, and side-aches no longer torture her in her work. Over 90,000 women have testified to the wonderful virtues of the "Favorite Prescription" over their signatures. An honest druggist will not try to force on you a substitute for the sake of a few pennies added profit.

Dr. Pierce's 1000-page "Common Sense Medical Adviser" will be sent free, paper-covered, for 21 one-cent stamps to pay cost of mailing *only*. Or cloth-bound for 31 stamps. Address, World's Dispensary Medical Association, Buffalo, N. Y.

It is rumored that the Pennsylvania will make a change in their running time in a few weeks. There will be several radical changes.

Chicago Inter-Ocean: "The Wabash road is said to be surveying a new line from Butler, Ind., to use in case it loses the Eel River line. It is not known whether that line will wiggle off or not."

While at work in the Bass blacksmith shop yesterday, Al. Mercer received a painful wound in the face, dangerously near the left eye. A piece of steel flew up from the steam hammer and struck him.

The Brotherhood of Locomotive Engineers on the Cincinnati, Jackson and Mackinaw have appointed a committee to confer with General Manager Drake regarding the restoration of the 10 per cent. cut made last fall.

An 80-light arc dynamo to the Edison Electric Illuminating company, Baltimore, Md., was one of the important shipments from the electric works today. The company is preparing to make a big shipment to the Pacific coast.

The Grand Rapids and Indiana put into service today a special train to and from Rome City to run during the camp meeting season. It leaves here at 5:45 p. m. and returns at 11:15. The camp meetings will continue until the evening of July 5. They are under the auspices of the National Association of Local Preachers.

News from Bellevue is to the effect that Con Tracey, the Nickel Plate passenger engineer, is in a bad way physically, being afflicted with a most obstinate form of stomach trouble. He has not been able to go out on his run for nearly two weeks and it is feared he may have to relinquish it entirely. Mr. Tracey is one of the oldest engineers in the Nickel Plate's service.

The receivers of the Baltimore and Ohio have been authorized to enter into a contract with the Pennsylvania Warehouse company for additional terminal warehouses in Philadelphia. The Warehouse company takes the B. and O. elevator and warehouse in Philadelphia at $70,000, subject to a $50,000 mortgage, and will erect an additional warehouse at a cost not to exceed $90,000.

W. D. Cramer, one of the oldest employes in time of service on the Pennsylvania road, died at Patterson, Pa., on Friday. He entered the service of the company Aug. 28, 1851. He was conductor on the first train that ran between Conemaugh and Lockport. Since 1864 he has been one of the trainmasters of the Pittsburg division. He has several brothers still living, all of whom are good railroad men.

There are thirty roads in the iron-clad agreement entered into at Chicago on Friday by the general passenger agents, it comprising nearly all the roads between Chicago and St. Louis and Western terminals of Eastern trunk lines, and as the agreement is entered into under the pressure of the presidents of the respective roads it will doubtless become effective as early as September 1, if not before, all depending on what headway is made in getting out the new form of tickets.

The Huntington Herald has this to say of a man formerly well known in this city: "Henry Fry, at present a main line conductor on the Wabash, was an arrival this morning, having come to attend the funeral of George Moore. Mr. Fry is a veteran railroader, and years ago was on the eastern division of the Wabash. Some time ago he accepted employment on the Atchison, Topeka and Santa Fe road, but finally returned to the Wabash, and is now running a mixed train between St. Louis and Union, Mo."

THE NORTHERN PACIFIC PRESIDENT.

It was rumored in Wall street yesterday that a decision had been reached in regard to the presidency of the Northern Pacific and that the announcement would be made soon. It was said that the original program will be carried out and that Mr. Lamont will be elected. At the office of J. Pierpont Morgan & Co., and the Northern Pacific offices, it was said that there was no definite statement to be made in regard to the matter.

There are 872 square feet of heating surface in the tubes and 78.1 square feet in the firebox, making a total surface of 950.1 square feet; the grate area is 14.8 square feet. The boiler and firebox are of Otis steel and the tubes are seamless drawn brass. The two side tanks have together a capacity of 1,300 imperial gallons of water, and there is space in the tender, carried on an extension of the engine frame, for two tons of bituminous coal.

COMMON SENSE CURE.

Pyramid Pile Cure Cures Piles Permanently by Curing the Cause.

Remarkable Remedy Which Is Bringing Comfort to Thousands of Sufferers.

Probably half the people who see this article suffer from piles. It is one of the commonest diseases and one of the most obstinate. People have it for years and just because it is not immediately fatal they neglect it. Carelessness causes no end of suffering. Carelessness about so simple a thing as piles has often caused death. Hemorrhages occur from no apparent cause and loss of blood causes death. Hemorrhages occur during surgical treatment, often causing death.

Piles are simple in the beginning and easily cured. They can be cured even in the worst stages, without pain or loss of blood, quickly, surely and completely. There is only one remedy that will do it—Pyramid Pile Cure.

It allays the inflammation immediately, heals the irritated surface and with continued treatment reduces the swelling and puts the membranes into good, sound, healthy condition. The cure is thorough and permanent.

Here are some voluntary and unsolicited testimonials that we have lately received:

Mrs. M. C. Hinkle, 601 Mississippi St., Indianapolis, Ind., says: Have been a sufferer from the pain and annoyance of Piles for fifteen years, the Pyramid Pile Cure and Pyramid Pills gave me immediate relief and in a short time a complete cure.

Major Dean, of Columbus, Ohio, says: I wish to add to the number of certificates as to the benefits derived from Pyramid Pile Cure. I suffered from Piles for forty years and from itching piles for twenty years and two boxes of the Pyramid Pile Cure has effectually cured me.

Most druggists sell Pyramid Pile Cure or will get it for you if you ask them to. It is one dollar per package and is put up only by the Pyramid Drug Co., Albion, Mich.

IS ITSELF AGAIN.

Nimrod Hall Returns to the Name That Made it Famous.

Otto F. Strodel Will Today Take Charge of the Old House of Call and Inaugurate

The Hospitality That Attracted Customers From All Parts of the City.

'Twas in 1872 that John George Strodel opened Nimrod Hall, on East Main street, and it soon became the center of good fellowship. To look at Mr. Strodel and to receive his hearty, cordial greeting was in itself a treat.

Although not centrally located, there was a charm about Nimrod hall that attracted congenial spirits from the remotest as well as the nearest parts of town, and the place was famous.

In 1892 Mr. Strodel was compelled to retire by reason of ill health, and it has changed ownership once or twice since.

Today it returns to its first love, for Mr. Otto F. Strodel, son of the founder, will take charge of Nimrod hall, and make his bow to friends and callers.

Mr. Strodel inherits the spirit that makes the name famous to the public as caterers and under his pleasant and capable guidance it is sure to rise to greater popularity.

Mr. Strodel said last night that the old place will lose none of its charm. The Centlivre beers will be better than ever. The wines will be choice, the liquors purer and the lunch more toothsome and more inviting than ever.

Mr. Strodel will have on hand the delicacies and he proposes to make his lunch one of the features of his house of call and garden. He extends an invitation to all to call and see him.

Mr. Strodel desires to inform his friends that the place will be, as in years gone by, a resort for his friends and patrons to gather and discuss the current topics of the day. All will be assured of the most cordial treatment.

Around Yellowstone Park.

"A climb up Electric Peak; a ride over Mount Everts; a trip to Yancey's; paddling about Yellowstone Lake; camping out down at Two Ocean Pass; a ride into the Hoodoo country; an excursion down the Madison to Riverside—all these can be made from some one of the hotels as a rendezvous, and take my word for it you will be surprised at the results.

"Make up a party of congenial spirits for vacation time in 1897 and go out to Yellowstone Park and see how much of its 3,344 square miles can be seen before you return. Spend the heated summer season at hotels where the temperature and altitude will allow genuine comfort and recreation."

The above is from a description of Yellowstone Park in "Wonderland '97." This book will be sent to any address by Chas. S. Fee, General Pass. Agent, Northern Pacific Railway, St. Paul, Minn., upon receipt of six cents. june17-tf

At the Grand Canyon of the Yellowstone.

"Where the road turns to the left at Grand View, walk out over the salient of rock at the angle itself, sit down on the farthest chimney shaft, over rocks naturally white, but now blackened by weathering. If possible, go there in the morning or in the latter part of the afternoon. At noontime the light is too strong, and the details of the canyon are smothered, and the individuality of the walls killed. But with a soft morning or afternoon light every detail of one or the other of the walls leaps out from the general mass as if instinct with life. And what a wonderful sea it is that lies beneath and beyond us. A painted sea, not of water but of rock. And such painting! Try to distinguish the decided colors and their infinite variations. The most wonderful part of it is the rare blending, where one fades into another, and yet thou canst detect neither the beginning nor the ending."

The above is taken from "Wonderland '97," a new tourist book that tells all about Yellowstone Park.

Peru Journal: "Yesterday two telegrams were received at the Western Union office, one for Mrs. Clara Baker, the other for Trueman Baker, but neither of the parties could be found. The message contained information that Mrs. Baker's sister is dead at Fort Wayne."

Bluffton News: "Jim Foncannon and wife, A. J. Carlisle and wife, Mrs. Sam Foncannon, Mrs. Kate Bradley and Miss Carrie Foncannon went to Fort Wayne yesterday, where a party was given at the home of O. P. Foncannon in honor of his thirty-seventh birthday."

Richmond Palladium: "Mrs. Thomas J. Study fell this morning while riding her wheel, at the corner of Seventh and Main streets. Aside from a general shaking up and a few bruises she was not seriously injured. The accident was caused by the wheel slipping on the wet street."

The storm last Thursday did much damage throughout the county and daily reports reach the city of some damages. Especially severe was the storm in Jefferson township. THE SENTINEL learns that the following buildings were struck by lightning: Henry Dawkins' barn, Joseph Langardner's barn, Levi Vandelier's barn and John Anderson's barn. Most of them were badly wrecked, but none burned up. Messrs. Vandelier and Anderson each had one horse killed.

The wise merchant offers his bargains during the dull season, thus making trade. Many merchants quit advertising when the dull season approaches, just the time they need money, and just the time when the only way to get trade is to advertise bargains. People accept bargains oftimes even if they don't really need the article. In flush times, when the merchant is selling lots of goods, there is less necessity for advertising than during the dull season of July and August.

We are selling an immense number of those fine $100 Smalley bicycles at $30. It is without doubt the best bargain ever offered in the bicycle line. The price we ask for this bicycle is positively less than the cost of the mere material, let alone the workmanship. It isn't a matter of profit with the manufacturers but the question of how to turn a lot of material quickly into cash. We are solving the question for them and you are reaping the benefit, if you know how to grasp an opportunity. Remember every one of these wheels is fully warranted. Black Katt sells them.

A GOLDEN PAGEANT

In Honor of the Greatest Queen in History.

Millions of People Cheer the Ruler of Britain.

The Greatest Parade the World Ever Knew.

All the Colonies of the British Empire Represented.

The Nations of the World, Along With British Subjects, Do Honor to Queen Victoria.

BUCKINGHAM PALACE, June 22.—The last of the procession is out of sight, the roar of cheers that mark its course up Constitution Hill tells the beginning of the story of the queen among her people, while the artillery in Hyde park by a royal salute of sixty guns are thundering the fact to waiting thousands elsewhere. The queen has actually started and the hearts of thousands insurance people and members of Lloyds beat more placidly as they remembered the premiums on five millions of dollars that had been wagered with them whether or not her majesty would start.

THE COLONIAL PROCESSION.

The procession was practically in three sections as far as St. Paul's, though the two last en route to the Cathedral were consolidated as they moved into Piccadilly. The first to take up position was the colonial procession formed on the embankment and moved via the Mall, thence past the palace, where her majesty viewed it from a window, over the route to St. Paul's. The march began at 8:45 and the great cortege proved a welcome relief to waiting multitudes.

The procession was headed by an advance party of the Royal Horse guards. Then followed the band of the same corps playing the inspiring "Washington Post March." Close upon the band came a portion of the picturesque northwest mounted police as escort to the first colonial premier, the Hon. Wilfred Laurier.

in the familiar Zouave costumes of long ago and the Royal Niger hussars, men who fought at Ilorin and Bida being in the uniform of kharaki cloths trousers, capping the limbs, were all blacks. The hussars, the blackest of the blacks, wearing "the burnished livery of the sun" were most enthusiastically greeted.

THE MILITARY PROCESSION.

The second procession passed the palace fifty minutes after the colonials had climbed Constitution hill. It more than eloquently filled in the picture of Britain's war strength; more than magnificently completed the carnival of gorgeous costume and color. Scarlet and blue and gold; white and yellow; shining cuirasses and polished helmets, plumes and tassels; furs, and gold and silver spangled clothes; bullion embroideries and accoutrements; splendid trappings and more splendid trappings for men; sashes and stars; crosses and medals—medals for the Crimea, Indian, Seringapatam, the Nile, Ashanti, Afghanistan, Chitral, South Africa, China and dozens of others, and here and there "the finest of them all, the finest and most highly prized the world can show, the Victoria Cross; death dealing weapons, swords and revolvers; carbines and cutlasses; batteries of artillery; men of splendid physique and horses with each action fully entered in the spirit and meaning of it all, the fondly carried colors for which these men would die, and over all the rich strains of that music they best loved to hear—the sight was one to stir the blood as only soldiers have stirred it since the dawn of time. But the scenes of troops and companies were literally too numerous to mention except as a brilliant whole.

his royal highness Prince Christian. On the left of her majesty rode his royal highness, the Duke of Cambridge; on the right, his royal highness, the Prince of Wales, who was followed by the Duke of Connaught, the general officer commanding.

QUEEN GREETS LORD MAYOR.

ROYAL LAW COURTS, June 22.—The boundary of the Faithful city has been crossed by her majesty who has received the ancient stately homage from her chief magistrate. The lord mayor and the city officials on horse back arrived ten minutes before the queen was due and very striking was their appearance. Sir Faudel Philips wore the earl's robe to which lord mayors are entitled when crowned heads visit the city—a cloak of ruby silk velvet lined with white silk and edges with ermine. Sheriffs Ritchie and Rogers wore the sheriff's velvet court dress, wattled gowns and chains. The "Verie good bye sword," known as "Queen Elizabeth's pearl sword" presented to the corporation by the maiden queen at the opening of a royal exchange, A. D. 1570, was carried by the lord mayor. The sword is three feet eleven inches long with a fine Damascus blade.

On the arrival of the queen the lord mayor uncovered. Approaching the carriage of her majesty, his lordship, with all due obeisance, presented the hilt of the city's pearl sword, which was undrawn. The queen lightly touched it, thus returning it to the lord mayor in token that his submission was graciously accepted by his sovereign. Her majesty then commanded the lord mayor and the sheriffs to proceed and the procession moved towards St. Pauls.

IN THE SHADOW OF ST. PAULS.

The great bells of St. Pauls broke out in happy chorus as the queen's carriage started from Temple Bar, and only ceased as her majesty's carriage stopped in front of the steps of the city Cathedral. On the platform awaiting her were the archbishops of Canterbury, the lord bishop of London, the bishops of Marlborough and Stepney, the Very Rev. Dean Gregory and the clergy of St. Pauls. In the surrounding dignitaries were leading representatives of all the faiths of England.

With the stopping of the queen's carriage the picture was complete. [illegible]

The queen witnessed this and promptly sent one of her equerries to inquire as to the man's condition.

QUEEN TO HER COLONIES AND INDIA.

The queen has sent the following message to the British colonies and to India:

"From my heart, I thank my beloved people. May God bless them.
(Signed.) VICTORIA R. I."

THEIR LORDS LEAVE.

Two Domestic Edens That Are Now Adamless.

Mrs. Devaux is Looking for Her Recreant Spouse and so Likewise is Mrs. Turner—Two Desertions.

Mrs. Devaux is the name of a woman who wants the police to find her husband for her. The couple until last Saturday had been living on West Main street. On that day Devaux disappeared and his wife knows nothing of his whereabouts though she is positive he has purposely and forever abandoned her to a husbandless fate so far as he is concerned. Mrs. Devaux says he drove from home Saturday with his horse and buggy and she is firm in the belief that he sold both animal and vehicle to obtain money with which to leave the city. No trace can be obtained of the parties to whom he sold the property, if it be true that he disposed of them. Mrs. Devaux says they had been married sixteen years and that her husband is a very impulsive Frenchman who drinks to excess and is ugly when drunk. The man has been engaged in selling patent rights in this section. There is no clue to the missing man, but he is believed to have gone to Chicago.

ANOTHER DESERTER.

OHIO CONVENTION.

Republicans Likely to Have a Big Fight.

The Hanna and Bushnell Factions Have Prepared for War—State Chairman is the Bone of Contention.

TOLEDO, Ohio, June 22.—The republican state convention began here today. It will nominate a full state ticket and endorse a candidate for United States senator. There is no opposition to Senator Hanna for both the short and the long terms and none to the renomination of Governor Bushnell and other state officers, all of whom are running for their second terms. There is no agitation over the resolutions or any of the ordinary issues at conventions. The contest has been from the start for the control of the state central committee which selects the campaign chairman. Each of the twenty-one congressional districts was closely canvassed in advance for committeemen and both factions claimed a majority of the twenty-one members up to today. Senator Foraker, Governor Bushnell and others have been uniting in their efforts to retain Chairman Charles L. Kurtz, while Senator Hanna and the old following of President McKinley and Secretary Sherman have supported Major Charles Dick for the place.

This fight has involved all the party leaders on one side or the other, and is the most bitter contest that has been waged within either party for years.

The old state central committee held its last meeting this morning, but owing to the peculiar canvass for campaign chairman none of the contests were decided for the temporary organization of the convention. These contests were referred back [illegible]

NEW MAIN SEWER

To Relieve the Floods in the Seventh Ward.

Board of Public Works Likely to Order Its Construction on Monroe Street—Contracts Awarded.

One of the most serious questions which has confronted the board of public works is the problem of giving necessary and proper relief to the dwellers in the Seventh ward, where the sewerage capacity has been many times proved to be totally inadequate to drain that district of the city during wet seasons and at times of heavy rains. That section of the city is frequently flooded and it is a question no longer disputed that the health in that ward is impaired by the condition existing. The board of public works will furnish additional sewerage capacity as soon as the most practical plan can be determined. City Engineer Randall has surveyed several routes for sewers, the last, which was completed yesterday, being for a main sewer on Monroe street, from Lasalle to the end. This seems to be the only practical route and it is not improbable that the board will determine upon it within a few days.

IMPROVEMENTS ORDERED.

The board of public works yesterday awarded the contracts for which proposals were received last week. George Wilhelm received the contract for building sidewalks on Monroe street, from Berry to Washington, at twenty-seven cents per lineal foot. The contract for grading the alley between Lewis and Summit streets, from Coker to McCulloch, was given to Julius Renns, at ten cents per foot. J. F. W. Horstman was the successful bidder on the [illegible]

[illegible] monument at Northside park, was approved, as was also the contracts of Julius Renns, George Wilhelm, J. F. W. Horstman for work mentioned above.

The board instructed the engineer to prepare plans and specifications for sidewalks on the west side of Fairfield avenue, from Creighton avenue to Organ avenue.

MORTUARY MATTERS.

Death of Mrs. Bridget Ryan—A Circus Man Dies.

This morning at 10 o'clock occurred the death of Mrs. Bridget Ryan, at the home of her daughter, Mrs. George Boatner, No. 9 Clay street. The deceased was a widow and aged seventy-one years. Death was due to bronchitis.

Albert C. Romaine died at the St. Joseph hospital last evening of typhoid pneumonia. The deceased was an acrobat and was taken sick at the time of the exhibition of La Pearl's circus, of which he was an attache. The local lodge of Elks, of which he was a member, had him taken to the hospital. The remains were shipped today to Fraceysburg, Ohio.

ANNUAL EXHIBIT

Of Art and Needlework at St. Augustine's Academy.

The Work of the Pupils for the Season—Pretty Things of Much Merit Shown.

A very large number of persons have visited St. Augustine's academy since Sunday, at which time the annual exhibit of the art and school work of the pupils began. The exposition room was filled with a wealth of beautiful needlework and pencil, pastel and charcoal drawings.

The exhibit is composed only of work done by the pupils, many of whom are from the younger classes. Nothing, however, was shown below the fourth grade. The entire exhibit was of a high quality of excellence. The names of the exhibitors were attached, and among these were seen those of the Misses Jennie Mooney, Della McCoy, Agnes Corcoran, Nellie Smith, Charlotte O'Rourke, Amelia Nussbaum, Fannie Bechtell, Maude Fitzgerald, Abbie Falvey, Carrie Work, Agnes Merz, May Quinn, Verra Graffe, Jeannette Mahler, Mary Dittoe, Alice Schneller, Genevieve Hogan, Celeste Partain, Minnie Rapp, Olivia Fox, Grace Dalton, Winnie and Bessie Hammond, Olivette Cameron, Adele Emo, Mary Kane, Marie Drake, Annie Sullivan, Julia Beckman, Edith Becker, Catherine Center, Mary Harman, Loretta Pierson, Henrietta Iten, Mary Noll.

In the pastels, which were particularly beautiful in coloring, the most noteworthy were two pictures of the Sacred Heart, done by Miss [illegible]

[illegible] Jeannette Mahler, Henrietta Iten, Addie Falberg, Lulu Reffelt, Katie McVey, Anna Welch, Mary Dittoe, Loretta Ronder, Mary Beneman, Bernadette Monahan, Katie Ryan, Nellie Shaughnessy, Dora O'Meara, Lillie Langard, Anna Sullivan and Winifred Callahan. Two Italian scenes in charcoal, by Misses Fairfield and McCoy, attracted much attention.

Under our flag Hawaii would become a delightful winter resort, with a January temperature of seventy-two degrees. In midsummer the average is but ten degrees higher.

It is reported that since April over 10,000 Spanish soldiers in Cuba have died of yellow fever. Every known form of pestilence will probably spread over the island from Weyler's starvation camps.

The first bicycles came from England, but American designers and mechanics have taken the lead and our wheels are admitted throughout the world to be unequaled. Their export this year has increased threefold.

The little girls who have been [illegible] the czar and czarina of Russia will be mighty glad some day that they are not boys. There are a thousand things in this world that are more fun than reigning over Russia.

The horseshoe which has long been considered the emblem of good luck, has lost its reputation through a flash of lightning which killed a Chinaman while he was in the very act of raising a horseshoe used in pitching a game of quoits.

In the Third Maine congressional district, where a special election will be held for a successor to the late Seth Milliken, ex-Governor Burleigh is the republican candidate, and F. W. Plaisted, a silver democrat, is his opponent. Milliken's plurality last year was 11,877.

The report that the sugar trust is thinking of buying Cuba and thus ending the war with Spain sounds visionary. The figures are too high. If the trust really wants the island, as the dispatches would indicate, why doesn't it just claim it, as it does everything else?

W. H. Boardman, a very rich citizen of San Francisco, has been sent to jail for violating, the second time, the ordinance prohibiting spitting in the street cars. The police judge properly took the view that there is no difference between the saliva of a millionaire and a pauper.

Thirty years ago this government purchased Alaska, paying $7,200,000 for it. The annexation was deplored, of course, as an undesirable extension of territory. The investment has proved a good one, however, and the territory could not be bought for seventy times the purchase price.

O. H. Downey has purchased another paper. He will take charge of the Kendallville News, July 1. Mr. Downey is a roving journalist and can jump in and out of the business quicker than any man in our acquaintance. Kendallville is a good field and it may be that he will remain a fixture there. The News is a good property and Mr. Downey is one of the greatest hustlers in the business. Dr. Parker, the retiring publisher of the News is one of the veterans of journalism. He will be lost without a newspaper. Mr. Downey at one time published a paper in Fort Wayne and The Sentinel wishes him success in his new venture.

General Gomez is preparing to strike a blow to the province of Havana very soon. The insurgents now have control of the entire island outside of this province, and a large cargo of arms and provisions was safely landed only fifteen miles from Havana a few days ago. It looks as if Spanish tyranny in Cuba were very near collapse.

In length of reign Victoria has beaten the English record, but the French record, that of Louis XIV., is a dozen years ahead of hers, and, of course, will not be reached. Louis' reign, however, counts from his fifth year of age, and was conducted through a regency until he was thirteen years old, while Victoria has actually as well as nominally been the sovereign during her sixty years of rule. Though Louis' reign will not be equalled by Victoria, it is safe to predict that it will be beaten by somebody outside of France than it ever will be by any body in that country.

It is mighty gratifying to note that Americans in attendance at the queen's jubilee are not making the fools of themselves that was anticipated. Americans abroad have long been the source of much sport, and after much experience foreigners have learned to look upon them as a class easy to cheat. Many of the sharpers were expecting to grow rich during the jubilee off the fat purses of their American cousins, but from all reports the would-be robbers are sadly disappointed, and the Americans are conducting themselves in a pretty decent sort of fashion.—Lafayette Courier.

The senate judiciary committee is at work upon an anti-trust amendment to the tariff bill. Several such amendments have been proposed in the senate. They were all referred to the judiciary committee. A strong sentiment has developed in the senate in favor of some action which will curtail the trusts in their operation, but none of the plans which have been suggested up to the present time seem, in the opinion of the senate committee on judiciary, to exactly fill the bill. The committee is giving the matter the most careful consideration, with a view to framing a provision which will prove effective.

HIS BAN UPON IT.

The Rev. Oechtering Disapproves of Music at Funerals.

The Rev. Father Oechtering, pastor of St. Mary's Catholic church, has expressed his disapproval of the employment of bands of music at funerals and has put his ban upon the custom so far as his own congregation is concerned. The Catholic uniformed societies customarily march at the head of the funeral cortege at the burial of deceased brothers and a band of music usually attends them. The Rev. Oechtering has long been opposed to the custom and Sunday during the attendance of a band at the funeral of the late John Schulz condemned the custom as un-Catholic in strong terms of disapproval.

This has been a vexed question among clergymen of all denominations for a long time, and has never been settled. The Rev. Father Oechtering, however, is the first Fort Wayne clergyman to formally pronounce against it. Bishop Rademacher, it is said, is in favor of the custom, and it is said the matter will be finally passed upon, has never expressed disapproval of the custom.

The Fort Waynes played another game with the Ohio Governors yesterday and won, but not until the demoralized visitors went to pieces in the eighth inning. The Springfields for seven innings played as fast and pretty a game of ball as has been seen on the Lakeside grounds this season. In the eighth inning with two men out, and two men on bases, Stevick muffed a fly ball and then Brennan and the team behind him went to pieces, and before the third man was out six unearned scores had tripped across the home plate. Three runs were added in the ninth, just to clinch the victory. Brennan pitched fine ball up to that fatal eighth, while during the entire nine innings "Dock" Severs pitched like a Nichols or a Rusie. In only one inning were ten hits made off him, and that was in the third. After Cooke missed a fly which would have made two out, Miles made a two-bagger and Kuhn a single, scoring two runs. Errors in the ninth scored another run. Altogether, only four hits were made off "Dock's" curves.

NOTES.

A better game has not been played in the Inter-State than that of Severs yesterday.

Robinson is fielding like a demon, but his batting is the weakest on the team. He will soon line 'em out.

Hickman won again and only allowed five hits. Why don't some National league club buy him and that quick, too, before he lands the pennant?

Hemphill Robinson has been signed by Wheeling and joined the team there Monday. He was with Wheeling a short time last season and is a good man.

Manager Hard, of Springfield, will blacklist Catcher Schabel and Pitcher Whittridge if they do not report today. He is in correspondence with several strong players and as soon as they can be secured the Governors will brace up.

New Castle Current Gazette: "Umpire Frank O'Brien was discharged Saturday night by President Powers upon complaint of Wheeling. Mr. Powers always did pay more attention to the complaints of Wheeling than answering ordinary questions propounded by New Castle."

Mansfield News: "A report was circulated Saturday night to the effect that Mangan and Somers had been released. Neither man was released. Manager Struthers had a little understanding with Mangan, however, and in the future he will either play ball or be found on a section. Mangan has the privilege of making a choice to suit himself. Pete Somers has also received orders to use a little more judgment in some of his playing."

The New York outfield is made up entirely of ex-pitchers. Tiernan went to New York as a pitcher, but was not fast enough for the company. As a last resort he was tried in the field, and met with instant success. Van Haltren was the star twirler of the Chicago White Stockings in their halcyon days. "Ducky" Holmes dealt out curves in a minor league and managed to pitch several winning games for Louisville when the Colonels were on the ragged edge.

Youngstown Vindicator: "Frank O'Brien, chief of the Inter-State staff of umpires, is considering a flattering offer to officiate in the Eastern league, made him by President Pat Powers. O'Brien will present the matter to President Powers, of the Inter-State. O'Brien is offered more money by the Eastern association, as the league is a faster one than the Inter-State. According to Mr. O'Brien's statement book, after an umpire in this league pays his expenses and takes the abuse heaped on him he has little left to recompense him for his trouble." There are other umpires in this league who deserve to be promoted before O'Brien.

The Springfield Sun, in a long article explaining the condition of the team, says: "The fact of the matter is the club has been just about self-supporting. The payroll Saturday night was about $200 short, but anything like a fair day at Fort Wayne Sunday would guarantee them enough to make up the deficit, and Manager Hard was instructed to pay them all that was coming to them on the spot. There has been about enough stock collected to construct and equip the grounds and pay the $500 guarantee which does the club last the season through, will revert back to the association. There is yet $1,100 worth of uncollected stock which for some reason has not been paid in. There is not the least disposition upon the part of those behind the association to allow the scheme of a base ball club to fall through and with the $1,100 all paid in the financial affairs of the Springfield base ball association will be on a solid rock. The city of Springfield has so far supported all games as discouraging as the prospect has been, better than any city in the league. With Ed Hard as manager and the stock all paid in, Springfield has a better chance to pull through the season financially than any club in the league, and with a winning team from now on will leave a nice balance in the treasury to fix up the buildings for next season."

VICTORIA'S JUBILEE.

Celebration and Banquet of St. George Lodge, Sons of St. George, in This City.

Fort Wayne citizens of British birth or British descent celebrated the jubilee anniversary of Queen Victoria in fitting manner last night.

The members of the Caledonian society and the ladies' auxiliary held a joint meeting at Caledonian hall. An impromptu celebration followed the business of the meeting. Capt. J. B. White presided, and delivered an address on the "Queen's Jubilee." The British national anthem, "God Save the Queen" followed, being sung by all present. Capt. Allan H. Dougall then delivered an address, in which he very entertainingly compared "Washington and London," "The Queen and the President." Mrs. James Cairnes spoke on "The Social Changes Among Women During the Queen's Reign." Mr. Hugh McFee then sang "Rule Brittania," and Mr. David McKay talked of "Social Changes Among Men During the Queen's Reign." "Scots Wha Hae" was then sung by the audience. Mrs. Alex Wilson spoke of "The Queen Then and Now, and Her Realm." The evening's exercises closed with the singing of "Auld Lang Syne."

At an entertainment and banquet in Red Men's hall in the MacDougall block the Sons of St. George properly celebrated the long and eventful reign of Britain's aged queen. The early part of the evening was devoted to a literary and musical program and several short addresses were delivered. At the conclusion of the program a banquet was spread and toasts were responded to by several prominent citizens.

THE "WHITE TOP."

The Indiana Farmers are Now Fighting This Vegetable Pest.

The farmers of Indiana are confronted with a fresh vegetable nuisance which promises to cause no end of trouble. This is a weed known as the "white top," which is literally taking entire fields of hay and grain in various sections. A peculiar phase of this very latest pest is, that it has appeared in fields this year which were entirely destitute of it before. The wiseacres of Purdue have been questioned on this subject and are still puzzling their brains without being able to arrive at any satisfactory explanation. In the meantime large fields of clover and timothy have been given up, the hay being rendered valueless by the "white top." Like nearly all the ills which affect the farmer's life there appears to be no remedy for the evil and the "white top" grows and thrives apace while the agricultural wonders—what next.

Kendallville Sun: "Henry Nahrwold, of Fort Wayne, spent Sunday with friends in this city. He is an employe of Root & Co., of that city, and a very excellent young man."—Miss Lettie Daniels spent Sunday with her sister, Mrs. Eva, at Fort Wayne.—At the home of Mr. and Mrs. C. H. Kiel there arrived Sunday Mrs. H. Wichman, Miss Gertrude and Masters Harold and Herbert Wichman, of St. Louis, accompanied by Mr. and Mrs. Walter Herbering and Miss Dora Berning, of Fort Wayne. They came to congratulate Master Albert Kiel, who has been very sick, but is better now and on the road to good health again. They all enjoyed a good time and returned in the evening to Fort Wayne, where the Wichmans, of St. Louis, are spending a vacation with Mr and Mrs. Wichman and family."

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

A woman's work is hard in many ways. Unless the woman is strong and healthy her work will cause her much distress and pain, and she will suffer from headaches, and backaches and side aches, and each evening will find her utterly worn out, sick and disgusted with life. In this condition of mind and body she cannot be a loving and amiable companion for her husband when he returns from his work weary too in body and mind.

If a woman wants to live a happy, contented, loving, helpful married life she cannot take too much care of the health and vigor of the organs distinctly feminine, for her general health and strength is largely dependent upon her special health in a womanly way. Dr. Pierce's Favorite Prescription enables a woman to be always well and strong where a woman most needs health and strength. It acts directly on the important and delicate organs involved in her wifehood and motherhood. It makes them strong and healthy. Taken during the period preceding motherhood it banishes the usual discomforts and makes baby's coming easy and comparatively painless. It insures the new-comer's health and provides an ample supply of natural nourishment. It cures all weakness and disease and headaches, backaches, and side-aches no longer torture her in her work. Over [illegible] women have testified to the wonderful virtues of the "Favorite Prescription" over their signatures. George Martin, formerly yardmaster of the Wabash at Lafayette, has been promoted to a passenger conductor, and August Hohl will succeed him as yardmaster.

Nickel Plate switch engine No. 22 has gone into the shops at Stony Island for a general overhauling and her place in the Fort Wayne yards has been taken by engine No. 44.

Chicago Inter Ocean: "The Wabash road is said to be surveying a new line from Butler, Ind., to use in case it loses the Eel River line. It is not known whether that line will wiggle off or not."

While at work in the Bass blacksmith shop yesterday, Al. Moser received a painful wound in the face, dangerously near the left eye. A piece of steel flew up from the steam hammer and struck him.

The Brotherhood of Locomotive Engineers on the Cincinnati, Jackson and Mackinaw have appointed a committee to confer with General Manager Drake regarding the restoration of the 10 per cent. cut made in a fall.

An 8-light arc dynamo to the Edison Electric Illuminating company, Baltimore, Md., was one of the important shipments from the electric works today. The company is preparing to make a big shipment to the Pacific coast.

Engineer Mead, who had charge of the Wabash passenger train which was derailed at the Chicago and Erie crossing Thursday, was taken seriously sick as a result of the accident and is now in the Wabash hospital at Peru.

Express Messenger Mundy, who was injured in the Grand Rapids and Indiana wreck at Stone station, is apparently worse hurt than was at first supposed. He is now confined to his home at Grand Rapids and serious consequences are feared.

The Grand Rapids and Indiana put into service today a special train to and from Rome City to run during the camp meeting season. It leaves here at 5:45 p. m. and returns at 11:15. The camp meetings will continue until the evening of July 5. They are under the auspices of the National Association of Local Preachers.

News from Bellevue is to the effect that Cos Tracey, the Nickel Plate passenger engineer, is in a bad way physically, being afflicted with a most obstinate form of stomach trouble. He has not been able to go out on his run for nearly two weeks and it is feared he may have to relinquish it entirely. Mr. Tracey is one of the oldest engineers in the Nickel Plate's service.

The receivers of the Baltimore and Ohio have been authorized to enter into a contract with the Pennsylvania Warehouse company for additional terminal warehouses in Philadelphia. The Warehouse company takes the B. and O. elevator and warehouse in Philadelphia at $70,000, subject to a $50,000 mortgage, and will erect an additional warehouse at a cost not to exceed $80,000.

W. D. Cramer, one of the oldest employes in time of service on the Pennsylvania road, died at Patterson, Pa., on Friday. He entered the service of the company Aug. 25, 1851. He was conductor on the first train that ran between Cincinnati and Lockport. Since 1864 he has been one of the trainmasters of the Pittsburg division. He has several brothers still living, all of whom are good railroad men.

There are thirty roads in the mutual agreement entered into at Chicago on Friday by the general passenger agents, it comprising nearly all the roads between Chicago and St. Louis and Western terminals of Eastern trunk lines, and as the agreement is entered into under the pressure of the presidents of the respective roads it will doubtless become effective as early as September 1, if not before, all depending on what headway is made in getting out the new form of tickets.

The Huntington Herald has this to say of a man formerly well known in this city: "Henry Fry, at present a train conductor on the Wabash, was an arrival this morning, having come to attend the funeral of George Moore. Mr. Fry is a veteran railroader, and years ago was on the eastern division of the Wabash. Some time ago he accepted employment on the Atchison, Topeka and Santa Fe road, but finally returned to the Wabash, and is now running a train between St. Louis and Union, Mo."

THE NORTHERN PACIFIC PRESIDENCY.

It was rumored in Wall street yesterday that a decision had been reached in regard to the presidency of the Northern Pacific and that the announcement would be made soon. It was said that the original program will be carried out and that Mr. Lamont will be elected. At the offices of J. Pierpont Morgan & Co., and the Northern Pacific offices, it was said that there was no definite statement to be made in regard to the matter.

TANK LOCOMOTIVES FOR JAPAN.

The Brooks Locomotive works has recently built and shipped to the Kiyu railroad, of Japan, four side tank locomotives having six coupled driving wheels and leading and trailing trucks. These are for use on a road built to a gage of three feet and six inches and are especially intended to run in either direction without turning the engine. These locomotives have cylinders fifteen inches in diameter by twenty two inches stroke, driving wheels fifty inches in diameter, driving wheel base ten feet four inches and a total weight in working order of 92,000 pounds, of which 70,000 is carried on the driving wheels and 11,000 pounds on each of the truck wheels. The boiler is of the straight barrel type and carries a working steam pressure of 150 pounds per square inch. There are 877 square feet of heating surface in the tubes and 75.1 square feet in the firebox, making a total surface of 952.1 square feet; the grate area is 14.5 square feet. The boiler and firebox are of Otis steel and the tubes are seamless drawn brass. The two side tanks have together a capacity of 1,200 imperial gallons of water, and there is space in the tender, carried on an extension of the engine frame, for two tons of bituminous coal.

COMMON SENSE CURE.

Pyramid Pile Cure Cures Piles Permanently by Curing the Cause.

Remarkable Remedy Which is Bringing Comfort to Thousands of Sufferers.

Probably half the people who see the article suffer from piles. It is one of the commonest diseases and one of the most obstinate. People have it for years and just because it is not immediately fatal they neglect it. Carelessness causes no end of suffering. Carelessness about so simple a thing as piles has often caused death. Hemorrhages occur during surgical treatment, often causing death.

Piles are simple in the beginning and easily cured. They can be cured even in the worst stages, without pain or loss of blood, quickly, surely and completely. There is only one remedy that will do it—Pyramid Pile Cure.

It allays the inflammation immediately, heals the irritated surface and with continued treatment reduces the swelling and puts the membranes into good, sound, healthy condition. The cure is thorough and permanent.

Here are some voluntary and unsolicited testimonials we have lately received:

Mrs. M. C. [illegible], 900 Mississippi St., Indianapolis, Ind., says: "Have been a sufferer from the pain and annoyance of Piles for fifteen years. The Pyramid Pile Cure and Pyramid Pills gave me immediate relief and in a short time a complete cure."

Major Dean, of Columbus, O., says: "I wish to add to the number of certificates as to the benefits derived from Pyramid Pile Cure. I suffered from Piles for forty years and from itching piles for twenty years and two boxes of the Pyramid Pile Cure have perfectly cured me."

Most druggists sell Pyramid Pile Cure or will get it for you if you ask them to. It is one dollar per package and is put up only by the Pyramid Drug Co., Albion, Mich.

IS ITSELF AGAIN.

Nimrod Hall Returns to the Name That Made It Famous.

Otto F. Strodel Will Today Take Charge of the Old House of Call and Inaugurate

The Hospitality That Attracted Customers From All Parts of the City.

Twas in 1862 that John George Strodel opened Nimrod Hall, on East Main street, and it soon became the center of good fellowship.

To look at Mr. Strodel and to receive his hearty, cordial greeting was in itself a treat.

Although not centrally located, there was a charm about Nimrod hall that attracted congenial spirits from the remotest as well as the nearest parts of town, and the place was famous.

In 1887 Mr. Strodel was compelled to retire by reason of ill health, and it has changed ownership once or twice since.

Today it returns to its first love, for Mr. Otto F. Strodel, son of the founder, will take charge of Nimrod hall, and make his bow to friends and callers.

Mr. Strodel inherits the spirit that makes the name famous to the public as caterers and under his pleasant and capable guidance it is sure to rise to greater popularity.

Mr. Strodel said last night that the old place will lose none of its charm. The Gambrinus beers will be better than ever. The wines will be choice, the liquors purer and the lunch more toothsome and more inviting than ever.

Mr. Strodel will have on hand the delicacies and he proposes to make his lunch one of the features of his house of call and garden. He extends an invitation to all to call and see him.

Mr. Strodel desires to inform his friends that the place will be, as in years gone by, a resort for his friends and patrons to gather and discuss the current topics of the day. All will be assured of the most cordial treatment.

July 2, the Nickel Plate road runs an excursion to Chautauqua Lake at very low rate. 22-86

Around Yellowstone Park.

"A climb up Electric Peak; a ride over Mount Everts, a trip to Yancey's; paddling about Yellowstone lake; camping out down at Two Ocean Pass; a ride into the Hoodoo country; an excursion down the Madison to Riverside—all these can be made from some one of the hotels as a rendezvous, and take my word for it you will be surprised at the results.

"Make up a party of congenial spirits for vacation time in 1897 and go out to Yellowstone Park and see how much of its 3,344 square miles can be seen before you return. Spend the heated summer season at hotels where the temperature and altitude will allow genuine comfort and recreation."

The above is from a description of Yellowstone Park in "Wonderland '97." This book will be sent to any address by Chas. S. Fee, General Pass. Agent, Northern Pacific Railway, St. Paul, Minn., upon receipt of six cents. june17 tf

At the Grand Canyon of the Yellowstone.

"Where the road turns to the left at Grand View walk out over the salient of rock at the angle itself, sit down on the farthest outer slab, where rocks naturally white, but now blackened by weathering. If possible be there in the morning or in the latter part of the afternoon. At noontime the light is too strong and the details of the canyon are smothered, and the individuality of the walls killed. But with a soft morning or afternoon light every detail of one or the other of the walls leaps out from the general mass as if instinct with life. And what a wonderful sea it is that lies beneath and beyond us. A painted sea, not of water but of rocks. And such painting! Try to distinguish the decided colors and their infinite variations. The most wonderful part of it is the rare blending, where one fades into another, and yet then canst tell neither the beginning nor the ending."

The above is taken from "Wonderland '97," a new tourist book that tells all about Yellowstone Park.

Send to Chas. S. Fee, Gen'l Pass. Agent, Northern Pacific Railway, St. Paul, Minn., six cents and get "Wonderland '97." 17tf

Bluffton News: "Jim Fonnannon and wife, A. J. Carlisle and wife, Mrs. Sam Fonnannon, Mrs. Kate Bradley and Miss Carrie Fonnannon went to Fort Wayne yesterday, where a party was given at the home of O. P. Fonnannon in honor of his thirty-seventh birthday."

Richmond Palladium: "Mrs. Thomas J. Brady fell this morning while riding her wheel at the corner of Seventh and Main streets. Aside from a general shaking up and a few bruises she was not seriously injured. The accident was caused by the wheel slipping on the wet street."

The storm last Thursday did much damage throughout the county and daily reports reach the city of some damages. Especially severe was the storm in Jefferson township. THE SENTINEL learns that the following buildings were struck by lightning: Henry Dawkins' barn, Joseph Langardner's barn, Levi Vandelier's barn and John Anderson's barn. Most of them were badly wrecked, but none burned up. Messrs. Vandelier and Anderson each had one horse killed.

The wise merchant offers his bargains during the dull season, thus making trade. Many merchants quit advertising when the dull season approaches, just the time they need money, and just the time when the only way to get trade is to advertise bargains. People accept bargains oftimes even if they don't really need the article. In flush times, when the merchant is selling lots of goods, there is less necessity for advertising than during the dull season of July and August.

YOUR SUMMER ...SUIT

Is the topic of our thoughts as well as yours just now. In fact we've been thinking about it for some time and have been getting ready for you.

The result is we are showing today the finest line of high-grade and up-to-date styles you ever saw.

Our Clothing is not the Ordinary, Ready Made, but Made at Our own Factory.

It is different from other clothing. We don't buy what the generality of Manufacturers make. The clothes that are turned out like ... nails.

We select our own styles, patterns and have our Suits made to order. We dictate what shall go inside our Suits ... linings and have all cloths SPONGED and SHRUNK, so we know what we are getting.

And You Know what You are Getting When You Buy of Us.....

That is why there is as much Style, Fit and Character in our $10 and $12 Suits as you find in Merchant Tailor's $25 and $30 suits.

Just step in and see what we are able to do for you on your
